

CBE AOL Closing the Loop Form

Program: MBA Date: May 4, 2021

Learning Goal: LG 3: Students who graduate will be effective data-driven decision makers.

Learning Objective: LO 3A: Students who graduate will perform quantitative analyses and apply advanced technological tools to solve complex business problems.

Program Director: Glen Taylor

Faculty Members: Vish Hegde, Jiming Wu, Zinovy Radovitsky

Closing-the-Loop

1. Review Learning Objective (LO) assessment data in the current Assessment Report.
2. Review previous LO assessment data and improvement

At the program level, increased student preparation before students begin the MBA program will help bring all incoming students up to a working knowledge of basic excel. This will avoid the need to spend class time on remediation.

Professor Radovilsky has supplied a list of appropriate self-paced public domain sources of educational support that will be provided by professor Taylor to all incoming students. This is intended to give guidance on sources of materials, without creating a requirement for a specific self-paced course as a mandatory requirement. In the faculty discussion of this improvement initiative, it was felt that students need to be given guidance without creating new academic pre-requisite requirements.
