DISCUSSION	The program portfolio website needs to be completed. Each program must curriculum map ready to post. The Chancelloffice looks at all courses required in a major ancurriculummaps should reflect each required course. If a course from another department is a required course there should be an indication of what skills or outcomes are expected from that course. Members were asked to go back to programs to review outside of department courses, evaluate where option courses fit into the curriculum map, and be thateeach required course is evaluated. Roadmaps also need to be reviewed and updated; final versions are requested no later than April 15, 2015, to APGS. Graduate programs should also prepare curriculum maps and roadmaps.
