

Courteny Gumora Ed.D.

11/17/2015

Greetings University Officials

I am contacting you with my urgent request of application for OAA Position No. 1617 EDLD-RESOURCE/MGMT/FIN/HRTT. I am committed to cross disciplinary education that fosters diversity in leadership, faculty and community collaboration. Currently I hold a faculty position at Patten University Education Department and coordinate a full inclusion high school program for students diagnosed with high functioning autism (autism has had a large impact on public schooling K-20), emotional disturbance/ADD, and related challenges that continue to elicit my scholarship in educational research for typically and atypically developing cognitive pedagogy.

As faculty at Patten University I have taught courses in Curriculum and Instruction, Classroom Observation Participation and Management, and Professional and Legal Foundations in Education. I have also been instrumental in writing the Patten University Multiple Subject and Single Subject Credential Programs and Program Assessment for the

and Constructivist (student experience developed knowledge) Education with Project Based Learning (collaborative with community based organizations).
