CALIFORNIA STATE UNIVERSITY, EAST BAY

SHARPS INJURY LOG

Date of Incident: _____ Time of Incident: _____ Location of Occurrence: _____

Type and brand of sharp involved: _____

Procedure resulting in the injury: _____

Describe how the incident occurred: _____

Body part involved: _____

If sharp had engineered sharps injury protection (safety needle and/or safety syringe) used, whether protective mechanism was activated: Yes No

If yes, please check box below:

- whether protective mechanism was activated
- whether injury occurred before the protective mechanism was activated
- whether injury occurred during activation of the mechanism
- whether injury occurred after activation of the mechanism
- unable to determine

If sharp had no engineered sharps injury protection, the injured employee's opinion as to whether and how such a mechanism could have been prevented the injury:
